## COUNCIL TO PASS ON REQUESTS TONIGHT

## Time Japanese Families Seek Permission To Come Here

Mayor Objects To Colony  
In View Of Edmonton's  
Strategic Air Position

Whether or not nine Canadian born or naturalized Japanese families, now resident at the Pacific coast, will be permitted to take up residence in Edmonton will be decided by the city council at Monday night's meeting.

Applications have been received from the following for permission to locate in Edmonton: Mr. and Mrs. Sadogata Kato and daughter, Mrs. N. Nagasawa, M. Nakase, J. Nakasaka, K. Nakase, T. Nakasaka, H. Nakasaka, K. Nakasaka, M. Nakasaka, and Mrs. N. Nagata and seven children.

It is pointed out in the commissioners' report referring the applications to council that Mayor John W. Fry has communicated with the British Columbia Security Commission with reference to the applications, and intimated that he had no personal objection to the type of Mr. Kato coming here to be with their son, Dr. Kato, house surgeon at the General Hospital.

## OBJECT TO COLONY

He points out in his communication that Edmonton is a strategic air centre, and is an important base and link in the inland Japanese route, and that while there may be no serious objection to a few Japanese coming here, it is pointed out that Mr. Kato is being permitted to come to Edmonton temporarily to be with his son here, it would seem quite inadvisable for war security purposes to permit a Japanese colony to be established here or in this vicinity even temporarily.

Mayor Fry asks for regulations which have been issued by the commission covering the removal of Japanese residents to the interior, whether the British Columbia Government will permit the persons concerned to return to their former homes after the war, and whether any Japanese permitted to go to other municipalities will be regarded as merely temporary residents in the interior municipalities, and in the event of any requiring assistance due to illness or for other reason will the British Columbia Government bear any expenses involved.

All applicants state they have sufficient funds to maintain themselves here.

A communication from F. J. Mead, Commissioner, British Columbia Security Commission, is submitted also to the council. This states that the commission, as a general policy, is opposed to the infiltration of Japanese into other parts of Canada, and small groups because of the opposition and protests it has received where such groups establish themselves prior to the formation of a permanent colony.

## ASSURANCES GIVEN

In places where large groups have been evacuated, the provincial government and municipalities have been given assurance that these people will not be burdened with any charge on the community in any way and that they will be removed after the war is over, the commission states.

It is stated also in the communication that "in some provinces where Japanese are residing, permission has been given to these families residing in the protected area to proceed to other points. All Japanese are forbidden to remove themselves from any place except under the order of the commission."

Members of the staff of the General Hospital, in a communication to the city council, intimated that Dr. Kato has been for the past two years endeavoring to get into the Canadian army, that he is patriotic and loyal to Canada, but that he is unfortunate owing to his race. The communication points out that his father has been naturalized for 35 years.

Representations on behalf of Dr. Kato are made also by Hon. Lester B. Pearson, K.C., minister of municipal affairs, who states in his letter to Mayor Fry that "it would personally appreciate any assistance you could give to Dr. Kato as he is deserving of every consideration in this embarrassing predicament. I also feel confident that you will do whatever you can in this matter to help Dr. Kato."

## TEAM RAISE OFFERED

Opposition to increase in the present street car fares is expressed in communications from the Federation of Community Leagues, and from the McCauley Community League. There will be considerable opposition to the increase in fares when A. J. Mitchell's notice of motion to introduce four tickets for one cent and the continuance of the 20 for 30 fare is being considered by council.

Council will consider also a petition from residents in the 22nd and 24th street district asking for the discontinuance of a nuisance caused by a resident's cat and dog operations. It is asserted that this resident keeps on his premises two horses, two cows and calves, two dogs, a cat, chickens and during the summer months turkeys. There is no fence around the place and these animals constitute a continual nuisance, doing considerable damage to lawns, gardens and trees in the vicinity. It is suggested in the petition that the city authorities remove the resident to a place near the city limits where he will have plenty of scope for his activities.

## SOLDIER EXEMPTIONS

Also to be presented to council will be the list of exemptions of those made to soldiers in the active

Nazis Demand  
Italian Fleet  
Start Action

MOSCOW, April 12 (AP)—

Control of the Italian navy by the Germans who intend to send it into action in the eastern Mediterranean and at the same time use the French fleet in the western end of the sea is a matter of the near future, "Tass" News Agency reported Sunday from Geneva, Switzerland.

Italian navy officials have been objecting to the German plan, although Mussolini has given in, "Tass" declared.

Quoting "well-informed Swiss circles," "Tass" said: "The German demand immediate decision on this question in connection with a number of preparatory measures they intend to carry out on a large scale prior to the beginning of spring operations."

"According to available reports," the German plan provide for transfer of the Italian submarine fleet to the west beyond Gibraltar with bases at Spanish ports, and for concentration of the greater part of the Italian surface ships in the Aegean sea.

"The French units which are being taken over Italy's lack of supplies in the North African campaign."

When or where that will be not indicated. However, a pattern which suggests itself for the immediate future is a supplementation of the serial attacks by commando raids on the occupied coasts. The appointment of Lord Louis Mountbatten to be head of "combined operations" resulting commando tactics, seems to bear this out.

It is perhaps significant that Lord Mountbatten attended the immediate consultation being held in London by Gen. George C. Marshall, United States chief of staff, and Gen. Sir John Dill, British chief of staff, for the purpose of planning for Allied offensive strategy in the Mediterranean.

It is not improbable that repeated commando raids may be made, to destroy enemy communications and installations before withdrawal. The Commandos have the advantage of choosing the spot to strike, an advantage hitherto always enjoyed by Hitler. He will be unable to guard a long coast, from the Bay of Biscay, to Northern Norway.

It is also possible that attempts may be made to set foot on the continent and hold them, at least for a time. This probably would entail sacrifice, but the advantages to be gained in harrying Hitler and hampering his war operations might outweigh them.

Thus both in Russia and in Western Europe the stage is being set for a hard struggle this summer. If Hitler loses it, or rather does not win it, his destiny, statement that "the tide is on the turn," is likely to prove true in 1942.

## Trams Boom

TORONTO, April 13 (CP)—Toronto transportation commission officials said Saturday 34,000 more persons—an eight per cent increase—will use Toronto's street cars and buses daily since gasoline rationing went into effect April 1. The daily average is 725,000 persons.

Under the provision of the Soldiers' Relief act, 1940, Total War Exemption, a 25-cent exemption from the tax on the sale of the names of soldiers who the rationing has been granted is contained in six pages of single type today.

Answering a question by A. J. H. O'Brien, the commission's report that since the increased rates for water to meet the cost of the installation of the water softening plant went into effect on January 1, 1941, BT&S had been endeavored against the installation cost.

Regarding that further Air Raid precautions work cannot be proceeded with unless funds for necessary initial expenses are voted by council, the commission is submitting a request from the A.R.P. committee for \$1,000 for preliminary expenses.

This will be used mainly to cover the cost of printing small pamphlets for distribution by air wardens, and for the purchase of air-raid shelters, which are very necessary in all branches of the volunteer services. A lengthy report on the work already done by the committee is submitted with the request.

## PAY INCREASE

The commissioners submit also for approval a new agreement with the city telephone employees. The proposed agreement is approved by the commissioners and the unions. The agreement provides for the payment of wage increases in lieu of the regular cost-of-living bonus given to other city employees for 1942. The increased cost of the proposed increase is \$69,000 annually, and is already included in the 1942 estimates.

Council will be asked to approve \$63,367.79 of local improvements and authorize the city engineer's department to proceed with the work. The proposed improvements include construction of plane and blimpous ways, grading, graveling, boulevarding and curbing, concrete walk construction and repaving, light grading and paving and painting of roads.

## Funny Business

"Luck nothing! He's the billiard champion of the outfit!"

Attacks On Malta  
Slack Off Sunday

VALETTA, Malta, April 13 (CP)—The Axis air stage of Malta

slacked off Sunday and sunbathers made the most of the respite by flocking to the island's beaches.

Instead of a day-long assault as usual, the enemy made only one sharp attack on Valetta harbor, and twice sent over reconnaissance planes.

Chile's army of 35,000 men includes 77 generals and 47 admirals.

Germans Execute  
Five Paris Hostages

PARIS, April 13 (AP)—The Germans announced Sunday the summary executions of five persons they identified as Communists in reprisal for the killing of a German sentry and the bombing of the Wehrmacht bureau in Paris.

They warned that numbers of other persons would be shot if the others are not handed over before April 17.

The growing U.S. military establishments which Marshall is inspecting and the increasing pool of United States planes in British hands are a serious threat to American pilots would be bombed.

## BIG BLITZ BREWING

U.S. Air Force Expected To Join  
British Over Germany In Month

By ROBERT E. BUNNELLE

LONDON, April 13 (AP)—

The United States Air Force will join the R. A. F. in blasting Germany within a month, and the two allies will do everything in their power to help Russia's epic effort to crush the common Nazi enemy, highly placed experts predict here.

This, they said, would be the upshot of the visit here of the United States chief of staff, Gen. George C. Marshall, and Harry Hopkins, President Roosevelt's supply man.

Britain and the United States were pictured as expediting Germany's supreme effort this summer to be directed at the two supply lines over which increasing quantities of vital war material are moving to the decisive Russian battlefield to equip the Soviet army, long on manpower but short on machines of war.

Expected thrusts

The German thrusts are expected toward the oil riches of the Caucasus and the Persian Gulf, and against the northern route which ends at Murmansk and Archangel.

The growing U.S. military establishments which Marshall is inspecting and the increasing pool of United States planes in British hands are a serious threat to American pilots would be bombed.

Both British and American quarters were silent officially on

the trends of the virtually continuous conference Gen. Marshall and Hopkins are holding with British leaders, because of the danger of tipping off the Axis on 1942 strategy. But no one is making a secret of the urgency with which they regard the matter of immediate aid to Russia.

Concentrate on Hitler

The very presence here of Marshall and Hopkins at such a critical time—rather than a visit to other theatres—emphasized the British and United States view that Hitler at the moment is the No. 1 enemy and Russia is the main hope of liquidating him.

The Allied aviators are engaged to the hilt in conveying trains of supplies for Russia's summer campaign. The shipping shortage is so acute that it probably will be some time before sufficient transport will be available for a continental invasion to open the second front for the Russians who have been asking for months.

Blitz ready for Japan

There have been candid assertions in Russian circles that they will never suffer a Pearl Harbor at Vladivostok. And there are equally candid hints that if Japan attacks the Soviet, Red bombers will swiftly span the 680 miles to Tokyo and the great industrial cities of the one object of destroying the Japanese war foundation.

This, it is being emphasized by a carte blanche invitation to the United States to join the Russians in the attack on the closely packed and highly inflammable Japanese industrial cities.

ENTHUSIASTIC ALBERTANS JAM STATION

## Canadian Army Display Train Draws Large Crowd

### Modern Tools Of War Attract 10,000 People At Three Rural Points

By JACK DeLONG

Samples of Canada's tools of war that are striking telling blows at the Axis on many far-flung battle lines were viewed by proud Canadians in Alberta rural districts over the week-end, when the Canadian army train visited Vermilion, Vegreville and Camrose.

### I Saw Today

A. A. CAMPBELL, city comptroller, at the city hall engaged in preparing a report to council.

AND Harry Sproule aboard an east-bound street car. Art May parking his car at Jasper and 106 street. Thelma Hodgkinson rounding the Bank of Commerce corner. W. F. Griffith exchanging greetings with a friend at Jasper and 101 street. Helen Smith walking north along 1016 street. Myrtle Cooke heading west on Jasper. Tom Tucker walking briskly north along 101 street in the early hours of the business day. Orville A. Kennedy discussing a variety of army matters with an interested friend in the central section of the city.

### Getting Around with Jack DeLong

There's a chance that a lot of people, including some in arms, may envy the seven officers and 54 N.C.O.'s who are touring the Dominion on the Canadian Army train on exhibition in Edmonton Sunday and Monday.

On the surface it looks as if the men aboard the train have a swell time, visiting all parts of the country, seeing new cities, new towns and new faces every day. But the chances are 10 to 1 the envy would leave the average person after two or three days of the routine followed faithfully by the army crew.

The train crew, personnel, under the command of Lt. Col. J. E. McKenna, M.C., has been on tour for 11 weeks. And there is one more month of travel ahead.

Since the tour started the officers and men have had just two free days.

### Quick Service For Bulletin Readers

Above with the expansion of development in the north, circulation of The Edmonton Bulletin is also reaching points in the far north. Above is shown Roy Robinson, Bulletin circulation manager, handing to Stewardess Miss Melba Tanney, R.N., a number of papers destined for subscribers at stopping off points as far north as Whitehorse. In the background is a 10-passenger Boeing, the property of Canadian Pacific Airlines, which makes a tri-weekly trip from Edmonton to Whitehorse. The papers being handed to the stewardess at 12:45 noon, will be in the hands of the readers at Whitehorse shortly. Miss Tanney is a veteran stewardess, whose duty it is to attend to the comfort of the passengers on the Yukon-Southern route. Capt. Ralph Oakes is pilot of the plane.

## Planning Now Required For Post-War Era

Migration and settlement on a large scale must be looked for after the war, and this means planning and planning now, was the opinion expressed by Commissioner David C. Lamb, C.M.G., L.D., O.P., retired commissioner of the Salvation Army, London, England, who arrived in Edmonton Monday in the course of a tour of North America, including Canada.

Commissioner Lamb referred to his trip as a "hitch-hike" round the world, as he was permitted to travel only ten pounds with him. He will address a public meeting here on Monday evening at the Salvation Army Citadel.

An retired from active service, and free to speak for himself, do not now speak for any organization, or government, so far as the Western Civilization is concerned. He must complete migration and settlement on a large and grand scale—developing agriculture and industries, and let me in the future be a factor in the development of the world.

"The continent of Europe will be very sick and the British Isles will be in the throes of the greatest social, economic, industrial and political upheaval they have ever known. Think of the homes destroyed and uprooted, and the hunger industries. Millions of decent families will be left homeless and in need of food and shelter. The answer must be at once given and adequate. There must be no hesitancy amongst the workers, least newcomers usurp their positions and create unemployment."

### President To Speak At Legion Meeting

Position of the Canadian Legion in post-war reconstruction will be discussed by C. G. Heckbert, of Vermilion, president of the Canadian Legion, at the regular meeting of that organization's Edmonton branch, at the Memorial hall on Thursday night.

The meeting also will elect delegates to the Dominion Convention. Several resolutions will be discussed at the meeting, which will be held in the hall's lounge room.

## 12,000 Edmontonians Meet 15-Coach War-Caravan On Arrival Sunday Night

Eager to see the kind and quality of the weapons Canada's sons will bear in the forthcoming offensive against the Axis, more than 12,000 residents of Edmonton Sunday night turned out to meet the Canadian Army train, now touring the Dominion.

His Honor Lt.-Gov. J. C. Bowen headed a large special reception committee that met the officers of the train, prior to the public showing of the exhibits. The Lieutenant-Governor later passed through the train after signing the registry.

Brig. F. M. W. Harvey, V.C. M.C., officer commanding M.D. 13, and Mrs. Harvey also visited the train. Lt. Col. E. Brown, M.M. E.D., Edmonton area commander, extended an official greeting to the commander of the train, Lt. Col. J. E. McKenna, M.C.

The band of the 2nd Bn. of the Edmonton Regiment, Canadian Army (Reserve), played at the old C.N.R. station where the train was deposited.

TROOPS ON HAND Detachments of troops from the 2nd Bn. Edmonton Regiment, and from the 2nd Bn. Edmonton Fusiliers, were on hand at the station to welcome the visiting troops.

Others who visited the train early Sunday evening were: Lt. Col. H. Waller Hale, M.C., officer commanding 2nd Bn. Edmonton Regiment (R.C.A.); Lt. Col. H. B. Jamieson, officer commanding 2nd Bn. Edmonton Fusiliers (R.C.A.); Alan Elliott, officer commanding No. 13A district depot; Lt. Col. P. S. Warren, officer commanding Cdn. Army Officer Training Corps Coy. University of Alberta, and a short illness. She was in her 75th year.

## Mother Saved By Daughter's Arrival Home

Opposite arrival of the 14-year-old daughter saved the life of Mrs. Ellen Broad, 10227 122 street, when she was overcome by gas fumes in the basement of her home, at 11:30 noon Sunday.

Joyce Broad, age 14, arrived home to find her mother lying on a couch in the basement in a dazed condition. She summoned aid from her neighbor, S. C. May, 10220 122 street, who carried Mrs. Broad to his own back porch and called the fire department for a pulmonologist.

Dr. J. H. Harvey, assisted by Firemen Weir and Manson, applied the pulmonologist and Mr. May told police that as he entered the basement he noticed that the furnace gas valve was turned on.

Mr. Broad was attending church when the incident occurred. Police stated that they were very grateful to Dr. Gray that Mrs. Broad's condition was not worsened questioning at that time.

## Province Asks City's Stand Relief Cases

Concerned with the increasing number of physically fit persons between the ages of 19 and 45 who are applying for relief, A. A. MacKenzie, provincial commissioner of public welfare, in a communication to the Edmonton city council indicated that it would be desirable to have a resolution from the city council stating deprecating or disapproving of the application of such persons for relief, who do not approve of granting unemployment relief to applicants who come within the above age category.

Test of Mr. MacKenzie's letter follows: "During the past few months there has been a gradual increase in applications for relief from physically fit persons between the ages of 19 and 45. In A. A. MacKenzie, M.C., has made by the Dominion government to the provinces, municipalities and industries to reduce men for war industries other than the combatant force, I consider it would be desirable to have a resolution from your council stating deprecating or disapproving of the application of such persons for relief, who do not approve of granting unemployment relief to applicants who come within the above age category."

"I shall in the meantime deal with the monthly statement of unemployment relief from your city until I hear from you." (Signed) A. A. MacKenzie, M.C., Commissioner of Public Welfare.

dead. PO. Simpson completed his observation course at Rivers, Man. and left for overseas in late November. He was 24 years old, and was educated in Edmonton's Public and High schools. He was reported R.C.A.F. from Vancouver, where he was employed as an accountant.

### Lt. Col. Mess Here

Lt. Col. James Mess, chief recruiting officer for Canada, is in Edmonton Monday to address a meeting of the civilian recruiting committee. The meeting will be held at the Macdonald hotel at 12 noon.

### Grass Fires Keep Firemen On Alert

City firemen spent a busy week-end coping with bush and grass fires. They responded to seven such calls on Sunday. The only call that responded to during the week-end was a small chimney fire.

## ALLIES MUST MAINTAIN GRIP

## Pacific: The United Nations Begin To Hold That Line

Spirit Of R.C.A.F. On Canvas

"... for I shall have done my duty to the utmost of my ability—no man can do more and no one calling himself a man can do less." This quotation from an airman's letter to his mother has been chosen to express the feeling of the above painting of a Canadian sergeant pilot by Flying Officer Bryant Fryer, R.C.A.F.

## Arrested For Libeling MacArthur

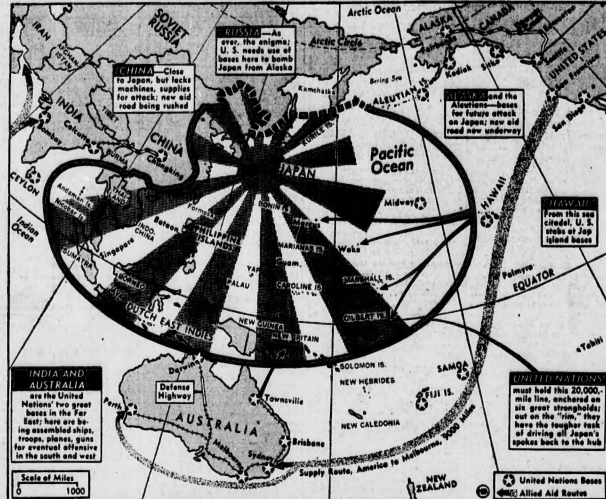

Little O. Jones, left, is visited by his associate, Robert Noble, after getting 90 days in Los Angeles jail for refusing to give satisfactory answers to subversive activity investigators. Both men are accused by California's attorney general of libeling General MacArthur.

## Her Dead Daddy Won It

Little English girl shows her cousin the medal posthumously awarded her father, a captain in the merchant navy, who threw overboard an unexploded bomb that landed on his ship.

In the vastness of the Pacific Ocean's 68,000,000 square miles multiple Japanese thrusts have forced the United Nations back to a line nearly as long as the equator. It is here the Allies are beginning to hold fast while preparing for a counter-offensive to clear those wide waters of the yellow tinge.

## Sweet Revenge — Against The Japs

The spectacular combat-photo, above, taken in the midst of Uncle Sam's smashing attack against the Japanese on Wake Island Feb. 24, shows a United States scout bomber roaring over the target while two oily black columns of smoke (directly under plane) mark direct bomb hits on important defence installations erected by the enemy. In the plane, bristling with guns, is a three-man crew comprising the pilot, radio man-navigator and aft gunner. Heroic U. S. Marines on Wake Island held out against overwhelming Japanese odds early in the war until survivors were finally captured Dec. 28.

Bearded mechanic waves from the wing of a shark-nosed Kitty Hawk fighter as he guides pilot through swirling sands to British base in Libya during a desert storm.

As new U. S. co-ordinator for rubber, Arthur B. Newhall, 51-year man and former B. F. Goodrich vice-president, has broad powers to direct "use, control or production of natural and synthetic rubber."

The Governor-General and Princess Alice were honored guests at an exhibition in the National Gallery at Ottawa of contemporary Polish art. His Excellency and Her Royal Highness expressed considerable interest in members of the guard of honor, picked from the camp of the Polish legion in Canada at Owen Sound. Photographed during the inspection of the guard were His Excellency, Hon. Victor Podolski, Polish minister to Canada (in civilian clothes) and Col. W. Sukowski, who represented Major General Bronislaw Duch.

Imagine! An M.P.

Heck!

Trig Mrs. Trisile Ovel is among first group of military policemen to see duty in England. An arresting figure, isn't she? In civilian life she is a shop assistant. She is being trained in police methods.

It seems girls who look like this are always getting married. Carol Landis of the movies had made Gene Markey the happiest man in the world for the third time. It's also Carol's third wedding.

## Jeweller-Munitions Maker

Under a plan initiated by Silversmiths and Jewellers War Production Group in England, British jeweller plus his trade as small parts munitions maker.

## Deadly Nest

Machine gun nests such as the one shown in this photo dot the shoreline in the vicinity of the big coastal guns which guard Canada's Pacific approaches. Extension of enemy activities to within a few miles of North America's shores has put every man in Canada's Pacific defence organization on the alert.

THAT WAS THE RIGHT THING  
TO SAY, FEARLESS...BUT DID  
HAVE GONE ANYWAY!
